# Advanced Electronics Ltd

34 Moorland Way  
Nelson Park  
Cramlington  
Northumberland  
NE23 1WE  
England

Tel: +44 (0)1670 707111  
Fax : +44 (0)1670 707222  
Email: [sales@advel.co.uk](mailto:sales@advel.co.uk)  
Website: [www.advel.co.uk](http://www.advel.co.uk)

Advanced Electronics is the UK's largest independent manufacturer of fire safety systems and winner of the 'Export Innovation' category at the 2007 Fire Industry Awards. The company manufactures and markets a comprehensive range of intelligent control and indicating equipment for use in fire detection and emergency lighting markets.

The fire detection products consist of a range of networkable analogue control panels and peripherals, supporting independent third party protocols and devices. These control panels are complemented by innovative products such as ipGateway™ software which is a fully interactive internet portal that allows remote monitoring using a standard web browser. Advanced also manufactures an intelligent 3-zone gas extinguishant release control panel.

The emergency lighting product range is a collection of powerful control and indicating panels, addressable luminaires and networking peripherals together with a number of stand alone, programmable, self-test luminaires. For flexibility and reliability the control panels are all based around a common core technology. This 'commonality' enables the company to offer, on an OEM basis, a broad range of control and indicating equipment with many common usability features.

## ADT Fire & Security

Security House  
The Summit  
Hanworth Road  
Sunbury-on-Thames  
Middlesex

# AirSense Technology

1 Caxton Place  
Caxton Way  
Stevenage  
Hertfordshire SG1 2UG  
England

Tel: +44 (0)1438 751296  
Fax: +44 (0)1438 729137  
Email: [sales@airsense.co.uk](mailto:sales@airsense.co.uk)  
[www.airsensetechnology.com](http://www.airsensetechnology.com)

AirSense Technology is a market leader and manufacturer of Aspirating Smoke Detection systems, with more than 175 man years experience in this specialised field of fire protection. AirSense probably has more accumulated experience in this field than any other organisation. The company is based in Hertfordshire, England where we have extensive research facilities. We have subsidiaries, associates and overseas distributors for international distribution in all regions. Special subsidiaries operate as AirSense Asia, Australia, Benelux, Finland and Korea.

The AirSense Technology Stratos-HSSD® range of products are suitable for the detection of incipient fires in a wide range of environments. They are particularly well suited for the protection of EDP (computer) equipment in high air-flows, and other 'difficult to protect' environments. Stratos-HSSD® may be configured to be so sensitive that it can actually detect a slowly building fire before any damage occurs, but it is also virtually impossible to have a nuisance alarm. This is because the system uses a patented form of 'Artificial Intelligence', unique in a fire alarm product, called ClassiFire this guarantees that the system maintains a maximum SAFE sensitivity.

# Colt International

New Lane  
Havant  
Hampshire PO9 2LY  
England

Tel: +44 (0) 239245 1111  
Fax: +44 (0) 23 9245 4220  
Email: [info@coltgroup.com](mailto:info@coltgroup.com)  
Website: [www.coltinfo.co.uk](http://www.coltinfo.co.uk)

Colt's products and services are designed so that people can live and work within an environment where safety and the quality of both air and light are in perfect balance.

Colt offers problem solving advice, project management, and the design, supply, installation, commissioning and maintenance of systems in the fields of smoke control, ventilation, heating, glazing systems, solar shading and louvre systems.

# C-TEC (Compuionics) Ltd

Stephens Way

## Detectortesters

Edison House  
163 Dixons Hill Road  
Welham Green  
Hertfordshire  
AL9 7JE  
United Kingdom

Tel: + 44 (0) 1707 282760  
Fax: + 44 (0) 1707 282777  
Email: [sales@detectortesters.com](mailto:sales@detectortesters.com)  
[www.detectortesters.com](http://www.detectortesters.com)

**Detectortesters** is the world's leading independent manufacturer of professional test and service equipment for automatic fire detection systems. Our **Solo** range enables functional testing and maintenance of smoke, heat and CO fire detectors, while **Trutest** provides a quick and accurate measurement of the sensitivity of in-situ smoke detectors.

In addition to Solo and Trutest, we have recently launched **Testifire** – the world's first multi-stimulus detector tester for smoke, heat and CO fire detectors. Testifire enables faster and more efficient testing of single and multi-sensor detectors by using the latest technology to combine three test processes in one unit. Smoke Sabre is another recent addition to the Detectortesters range – an innovative, low cost functional aerosol smoke tester that eliminates the harmful residue associated with conventional aerosols. All the company's products are approved by leading detector manufacturers and are used in over 80 countries world-wide.

# Fireco

Preece House  
Davigdor Road  
Brighton  
BN3 1RE

Tel: 01273 320650  
Fax: 01273 320655  
Email: [sales@firecoltd.com](mailto:sales@firecoltd.com)  
Website: [www.firecoltd.com](http://www.firecoltd.com)

*Fireco Ltd - Keeping a watchful eye on market needs. As innovators in the field of dedicated fire alarm listening technology, Fireco has built a reputation as a company that has grown by listening to marketplace demands and by reflecting on the significant advances in EU legislation.*

Established for over a decade, Fireco is the Brighton-based designer and manufacturer of **Dorgard**, the acoustically activated fire door hold-open device, that's designed to save peoples' lives and protect buildings whilst allowing freedom of access and **Deafgard**, the acoustically activated fire alarm listening device that alerts deaf and hard of hearing people if there is a fire.

# Fire Fighting Enterprises

9 Hunting Gate  
Hitchin  
Herts  
SG4 0TJ  
England

Tel: +44 (0)1462 444740  
Fax : +44 (0)1462 444789  
Email: [sales@ffeuk.com](mailto:sales@ffeuk.com)  
Website: [www.ffeuk.com](http://www.ffeuk.com)

Fire Fighting Enterprises Ltd is the world's largest independent manufacturer of beam smoke detectors, used for the protection of "wide areas". We offer a full range of optical beam detectors, for all applications, including the FIRERAY 2000 end-to-end, the FIRERAY 50R/100R reflective, the FIRERAY EExd explosion proof and the latest FIRERAY 5000 motorized, auto-aligning beam.

Our products are approved to the relevant International standards, such as EN54 through **LPCB**, **VdS** and **UL**, as well as many country specific approvals, including China & Russia. We are **ISO 9001:2008** accredited and maintain high standards of quality in our UK manufacturing facility.

# Fire Service College

London Road  
Moreton-in-Marsh  
Gloucestershire GL56 0RH  
England

Tel: +44 (0)1608 650831  
Fax: +44 (0)1608 651788  
Website:  
[www.fireservicecollege.ac.uk](http://www.fireservicecollege.ac.uk)

Located on a 200 hectare site in the heart of the Cotswolds in central England, The Fire Service College provides unique facilities for both practical and theoretical fire fighting, fire safety and accident emergency training. Established on this site in 1968, the College has built its reputation as the premier fire related training establishment in the world, both in terms of the calibre and experience of its teaching staff and the scenarios it can offer.

# Cooper Fulleon

Llantarnam Park  
Cwmbran  
Gwent, NP44 3AW  
England

Tel: +44 (0) 1633 628500  
Fax: +44 (0) 1633 866346  
Email: [sales@fulleon.co.uk](mailto:sales@fulleon.co.uk)  
Website: [www.cooperfulleon.com](http://www.cooperfulleon.com)

Cooper Fulleon offers a full range of products to the fire and safety related industries. From established bells to state of the art patented technologies used in electronic sounders and beacons. In fact, Fulleon products, like the widely specified Roshni and Squashni are used as industry generic names. The Symphoni low current sounder, Solex Beacon and CX Call Point are established benchmarks in the fire and safety industries. These products have set new standards in their class and confirmed Fulleon's international reputation for quality and choice.

# Gent by Honeywell

140 Waterside Road  
Hamilton Industrial Park  
Leicester, LE5 1TN  
England

Tel: +44 (0) 116 246 2000  
Fax: +44 (0) 116 246 2210  
Email: [gent.export@honeywell.com](mailto:gent.export@honeywell.com)  
[www.gent.co.uk](http://www.gent.co.uk)

Gent by Honeywell is synonymous with quality and innovation in the Fire Detection and Alarm industry. Gent has been established for over 130 years and is proud of its heritage and the reputation it has built around the world. In 2005 Honeywell's acquisition of Gent assured the necessary resource and support required to maintain the strong market position that Gent has created over the years.

Across the world, Gent works in partnership with approved distributors who supply Gent Fire and Voice Alarm systems and also carry out design, installation, commissioning and maintenance operations to the highest standards of workmanship.

# GE Security UK Ltd

8 Newmarket Court  
Chippenham Drive  
Kingston  
Milton Keynes  
England

Tel: +44 (0) 1908 281 981  
Fax: +44 (0) 1908 282 554

# Hochiki Europe (UK)

Grosvenor Road  
Gillingham Business Park  
Gillingham ME8 0SA  
England

Tel: +44 (0)1634 260133  
Fax: +44 (0)1634 260132  
Website: [www.hochikieurope.com](http://www.hochikieurope.com)

Hochiki Europe is a Japanese owned company, which manufactures Conventional and Analogue fire detection products within the UK at its headquarters in Gillingham, Kent. Hochiki has been producing fire alarm equipment since 1918. The analogue product range (ASX) includes analogue smoke and heat sensors, field input/output modules permitting connection of auxiliary equipment and convention detection. The conventional product range (CDX) includes smoke and heat detectors, Ultraviolet flame detectors, Reflective and Emitter/Receiver style beam detectors.

# Jotun Paints (Europe)

Stather Road  
Flixborough  
Scunthorpe  
North Lincolnshire  
DN15 8RR  
England

Tel: +44 (0)1724 400000  
Fax: +44 (0)1724 400100  
Website: [www.jotun.co.uk](http://www.jotun.co.uk)

Jotun is one of the world's leading manufacturers of paints and powder coatings, and the market leader in selected areas. The group has an international network of production plants and sales offices in Scandinavia, the rest of Europe, the Middle East, the Far East, America, Australia and Africa employing a total of 5,300 people. The group is organised into three divisions, and its worldwide head office is in Sandefjord in Southern Norway.

The UK Head Office and factory is based in Scunthorpe North Lincolnshire. One of four key divisions, Jotun Paints is responsible for developing, manufacturing, marketing and selling coatings systems and cathodic protection for the marine market (Jotun Marine Coatings), protective industries (Jotun Protective Coatings) and the decorative sector (Jotun Decorative Paints). The division is responsible for marine, industrial & Steelmaster Intumescent Fire Protection Coatings as well as for decorative paints outside Scandinavia.

## LPCB & BRE Certification

Bucknalls Lane  
Garston  
Watford WD25 9XX  
England

Tel: +44 (0)1923 664100  
Fax: +44 (0)1923 664603  
Website: [www.redbooklive.com](http://www.redbooklive.com)  
[www.brecertification.co.uk](http://www.brecertification.co.uk)

**LPCB** (Part of **BRE** Global Limited) is the UK's leading approval & certification body in the fire & security sectors. It has the most extensive fire testing laboratories in the world, and has over 150 years of experience working with specifiers to set the standards necessary to ensure that a product will work effectively. These standards may be **LPCB's** own Loss Prevention Standards (LPS) or British, European or International Standards. Gaining product certification and listing can bring significant competitive market advantages to both manufacturers and installers. This is recognised worldwide as the quality mark for:

- Fire detection (e.g. fire and smoke detection and alarm systems)
- Fire suppression (e.g. extinguishers and hoses)
- Active fire protection products (e.g. fire doors, shutters, fire dampers and smoke curtains)
- Passive fire protection (e.g. film coatings, cladding systems, walling and flooring elements, seals etc)
- Installers of active and passive fire protection products
- Security products (from access control systems involving biometrics, to intruder detection systems and safes etc.)

# Macron Safety Systems

Burlingham House  
Great Yarmouth  
Norfolk NR31 0NN  
England

Tel: +44 (0)1493 417600  
Fax: +44 (0)1493 417700  
Website: [www.macron-safety.com](http://www.macron-safety.com)

Macron is committed to the provision of well designed, cost effective products manufactured to meet the demanding needs of a market that exists to protect life and property. Macron's comprehensive range of standard products is enhanced by the Hygood range of extinguishing systems, which are all manufactured to exacting standards in an ISO9000 quality environment.

- FM-200 Fixed Extinguishing Systems
- CO2 Extinguishing Systems
- Fire Hose Reels & Cabinets
- Dry Riser Equipment
- Nozzles, Monitors & Trailers
- Layflat Fire Hose
- Foam Making Equipment

# Nittan UK Ltd

Hipley Street  
Old Woking  
Surrey GU22 9LQ  
United Kingdom

Tel: + 44 (0) 1483 769555  
Fax: + 44 (0) 1483 756686  
Email: [mhunter@nittan.co.uk](mailto:mhunter@nittan.co.uk)  
Website: [www.nittaneurope.eu](http://www.nittaneurope.eu)

Since 1925 Nittan Company has been at the forefront of the fire protection industry. A member of the multibillion dollar JS GROUP, Nittan continues to offer the market quality products with piece of mind. Sales, marketing and manufacturing facilities are located around the world in key areas such as England, Sweden, Estonia, Japan and China. The Group's primary role is the protection of life and property. Nittan Fire Detection Products are also found on 40% of the worlds' cruise ships and vessels. Whether the application is land, sea or air, Nittan has a range of solutions.

# Neutron Fire Technologies Ltd

Shire Hall  
Lostwithiel  
Cornwall  
PL22 0BS  
United Kingdom

Tel: +44 (0) 1208 871185  
Fax: +44 (0) 1208 871254  
Email: [Sales@nft.eu.com](mailto:Sales@nft.eu.com)

Modern building designs require robust solutions to complex fire protection requirements. Such products or systems not only need to be economical and versatile but easy to install too. To this end, Neutron Fire Technologies Ltd offers a specialist range of intumescent coatings systems and fire and smoke penetration seals. These are designed to meet the demanding and exacting needs of modern building design. We are constantly developing new products and solutions to complex fire protection needs.

Neutron Fire Technologies Ltd has considerable experience in the design, testing and manufacture of passive fire protection systems. Our products have been used worldwide to provide fire protection to structural steel and fire and smoke penetration seals in building elements.

## Protec Fire Detection Plc

Protec House  
Churchill Way  
Nelson  
Lancashire BB9 6RT  
England

Tel: +44 (0) 1282 717171  
Fax: +44 (0) 1282 717273  
Email: [david.nuttall@protec.co.uk](mailto:david.nuttall@protec.co.uk)  
Website: [www.protec.co.uk](http://www.protec.co.uk)

Protec Fire Detection PLC is the UK's largest independent fire detection systems company. First formed in 1968 we have evolved to become a major international supplier of fire detection, VEPA and emergency lighting solutions for all applications, via our growing network of overseas distributors.

We manufacture a wide range of EN-54 approved addressable and conventional fire detection products, including both detectors and control panels. Our 6300 and 6400 digital addressable detection systems provide high quality and high performance, utilising multi-sensors, interactivity and algorithms to provide the earliest detection of fire whilst reducing unwanted alarms. Our Cirrus-IFD air sampling system has greater detection capabilities and lower false alarm potential than any other of its kind.

We manufacture centralised and de-centralised Voice evacuation and Public Address systems (VEPA). Our VEPA systems are fully integrated with our fire detection systems and our extensive range of emergency lighting products. From the simplest two zone conventional control panel, to the most complex interactive digital addressable fire detection system, Protec ingenuity can be seen at work in hospitals, hotels, major high street stores, shopping malls, sports stadiums and a wide variety of commercial environments around the world.

# Safety Technology International (Europe)

49G Pipers Road  
Park Farm Industrial Estate  
Redditch  
Worcestershire  
B98 0HU  
England

Tel: +44 (0)1527 520999  
Fax: +44 (0)1527 501999  
Email: [info@sti-europe.com](mailto:info@sti-europe.com)  
Website: [www.sti-europe.com](http://www.sti-europe.com)

Safety Technology International (Europe) Ltd, manufacturers and markets more than 50 unique products throughout the world which prevent vandalism, theft or accidental damage of essential fire and security equipment. One of the most successful products within the Stopper Line is the Stopper, a polycarbonate protective cover designed to retrofit over fire alarm break glass call points. Since its introduction into the UK/ Europe over 10 years ago, and the USA over 25 years ago the Stopper has significantly reduced the incidents of false fire alarms.

Also within the Stopper Line are alarm devices for fire extinguishers and fire doors as well as a comprehensive range of protective anti-vandal cages for CCTV, emergency lighting, smoke detectors bells and sounders.

## Vimpex

Star Lane  
Great Wakering  
Essex SS3 0PJ  
England

Tel: +44 (0)1702 216999  
Fax: +44 (0)1702 216699  
Email: [sales@vimpex.co.uk](mailto:sales@vimpex.co.uk)  
Website: [www.vimpex.co.uk](http://www.vimpex.co.uk)

Vimpex Ltd, creators of the unique Fire-Cryer® Voice Enhanced Sounder, is also suppliers of a wide range of audible and visual alarms. Vimpex commercialise the range of Hosiden Besson electronic sounders worldwide, as well as being the exclusive European distributor for Kobishi alarm bells and strobes, and the Hydrosense Water Leakage Detection System.

# Xtralis

Vision House  
Focus 31, Mark Road  
Hemel Hempstead  
Hertfordshire HP2 7BW  
England

Tel: +44 (0)1442 206404  
Fax: +44 (0)1442 249327  
Website: [www.vesda.com](http://www.vesda.com)

Xtralis is a global leader in very early warning smoke detection and control systems, voice alarm and interactive video security solutions which protect business-critical assets across the world. VESDA products are used in industries such as transportation, manufacturing, IT&T, utilities and storage services. VESDA air sampling smoke detectors are renowned for their ability to consistently deliver smoke detection that protects a diverse range of global businesses and their challenging environments providing enhanced life safety and business continuity solutions.
