Fire Industry Association

Making Company Compliance Easy

Stay compliant and protect lives with our compliance portal, designed to keep your business ahead in fire safety.

FIA Compliance

3 Levels of Subscription

In the complex world of fire safety, ensuring compliance with British Standards is not just a legal requirement but a crucial responsibility. The FIA Compliance portal by the Fire Industry Association (FIA) offers a streamlined, fully compliant certification solution for professionals, business owners, and stakeholders in the fire safety industry.

What's Included?

- **Management Systems** - Sets of template policies, procedures, and methods of making record to meet quality management and assessment requirements.
- **Certificates** - Digital certificates that provide the receiver with a clear and concise record of what the contractor is certificating.
- **Checklists** - Reusable smart PDF British Standard compliant checklists which help achieve more consistent results across work activities.
- **Technical Reports** - Technical reports with built in calculations for record of verification and testing activities.

Equip your business with the necessary compliance documentation for your electrotechnical fire safety system work activities.

Our subscriptions are a straightforward and cost-effective way to give your business the compliance documentation you need for your fire safety system work activities.

By subscribing, you'll also gain access to expert guidance and resources that help streamline your processes, reduce risks, and demonstrate your commitment to high standards in fire safety.
